

Park & garden furniture

An important component of open spaces, pedestrian zones, and parks are areas set aside for relaxation. Our solid wood seating systems are ideal for such relaxation areas. They blend harmoniously into any surroundings.

On the following pages, we present our park and garden furniture. They are all constructed of durable or pressure-treated solid wood. These products are distinguished by lines with timeless beauty and balanced proportions.

Park & garden furniture

Our garden sets are built according to the best traditions of craftsmanship. The rustic design, the solid construction, and this stable, high quality workmanship ensure that even after years of outdoor use they will not be damaged. The "Steigerwald" set, for instance, is designed to be vandalism resistant and to blend in ideally in public spaces.

If you need special to design just ask us.
