

# Planters

Planters bring a piece of nature to the city. Year-round, they add a splash of green to pedestrian zones, lobbies, terraces, streets, and squares. Our decorative, stable planters ship ready to be planted. They offer the best growth conditions for all types and sizes of plants and can be moved at any time. Planters constructed of black locust do not need to be treated.

Various planters -- each a decorative eye-catcher. The roundwood of the "Berlin" model is milled of pith-separated Douglas fir to prevent splitting.

The "Trier" model, made of natural black locust, is also available in rectangular form.

*We manufacture to your wishes.*

Cologne

Standard designs with three board runs or more are available, e.g. rectangle or hexagonal; special heights and forms are also available.
